## Introduction

This is the third annual Journal Holdings Report of the U. S. Environmental Protection Agency's Library System. It represents the holdings of all EPA libraries and the Library, Illinois Institute for Environmental Quality. The report includes 2,950 titles and 6,821 holdings records.

Library code numbers have been assigned according to geographical location, based on the EPA regional structure. The "A" library is always the regional library; the "B," "C," etc., are assigned to other libraries located in the same geographical region.

Holdings records include the holding library code (e.g., 03A), the beginning volume number and date (e.g., 074 [1967]) and the ending date or "to present" for continuing subscriptions. An asterisk following the holdings statement indicates that there are issues missing.
